SUMMARY

Certified front-end development enthusiast with a background in customer service, familiar with HTML, CSS, JavaScript, and TypeScript. My experience includes building beautiful and functional apps using the MERN stack. I am eager to work further to improve my skills and make a positive impact in the world as part of a collaborative team.

EDUCATION

Full-Stack Web Development Program

CareerFoundry 2022 - 2023 Berlin

- Intense project-based training program focused on Javascript, HTML, CSS and most prominent libraries, frameworks and tools
- 500+ hours of hands-on training with guidance of industry leading tutor and mentor

Degree in Slavic Languages

Pázmány Péter Catholic University 2010 - 2014 Piliscsaba

- Developed critical thinking, analytical, and problem-solving skills through literary analysis
- Participated in academic discussions, seminars, and presentations
- Spent studying one semester in Krakow, and one in Prague

EXPERIENCE

Web Developer Apprentice

Tech Fleet Community DAO 2023 - Present Online

Tech Fleet is owned by the community and runs through volunteer contributions, leads and apprentices, who donate their time for themselves and for others.

- Working on a new application as part of a development team
- Participation in planning the the app architecture, as well as building the server and client sides
- Collaborating tightly with the UX/UI team in Scrum

Customer Service Agent

Sykes Enterprises 2020 - 2022 Berlin

SYKES provides differentiated full lifecycle customer experience management solutions and services primarily to global companies.

- Handled customer inquiries, complaints, and issues via phone, and email
- Assisted customers with product information, order processing, and troubleshooting
- Utilized company systems and software to accurately update customer information and track orders

Freelance Translator

Self employed 2014 - 2022 Budapest

Translated a wide range of content from Polish to Hungarian, including literary texts such as poems and children's books, as well as technical documents and other texts for diverse companies.

- Conducted research to ensure accurate translation of specific terminology
- Edited and proofread translated content for quality assurance
- Communicated effectively with clients to understand requirements and provide updates
- Managed multiple translation projects simultaneously and prioritized tasks effectively
